- Script builds MARC data structure
- Script handles data directly
- Major kinks worked out long ago

- MARC data structure built in ETD Center
- Software libraries handle data—problems with character encoding
- Problems still surfacing

```

- 008/23 (Form) value missing
- GMD Missing
- Punctuation missing
- Wrong date (2007 vs. 1982) [not this example]

Some Records Won't Import

- Several reports
- Makes Web tool unreliable
- Probable factors
 - Character encoding
 - Software libraries
- Fixable
